

CASE STUDY

**BRIDGE THEATRE
LONDON**

UNDERFLOORHEATING
DESIGN | SUPPLY | INSTALLATION

PROJECT BACKGROUND

The Bridge Theatre is London's first new commercial theatre of scale for four decades. The 900 seat auditorium is the flagship home of the London Theatre Company. The outstanding venue overlooks the River Thames and features state-of-the-art auditorium that brings flexibility and the latest in-stage technologies.

UFHN LTD were asked to design an underfloor heating system for the lower ground and ground floor foyer area of the building, with a specific request from the Architect to source a specific colour thermostat to match the interior.

CLIENT

Mechanical

SIZE

520m²

PRODUCT

Supply and install of heat emission plates, 16mm P16 and blending manifolds

CONTROLS

Tamperproof thermostats with night set back

“A seamless install and fantastic project management”
