

CASE STUDY

LEEWARD HOUSE, MOUNT WISE DEVELOPMENT PLYMOUTH

UNDERFLOORHEATING
DESIGN | SUPPLY | INSTALLATION

PROJECT BACKGROUND

This third phase of the unique Mount Wise development in Plymouth introduces a new era of waterside living to this stunning redevelopment of the former military headquarters.

Leeward House blends urban living with the waterside in a collection of contemporary 1, 2 and 3 bedroom apartments and penthouses creatively arranged over six floors.

Working with the Mechanical Contractor UFHN delivered every floor of apartments on time incorporating low-temperature towelrails in the bathrooms run through the UFH manifolds and control system.

CLIENT

M&E Contractor

SIZE

3500m²

PRODUCT

Installed Mercury UFH system. 16mm MLCP pipe clipped to insulation.

CONTROLS

Touch screen controller with dial thermostats

“UFHN worked closely with the Contractor every step of the way, providing a seamless install.”
