

CASE STUDY

MANOR PLACE DEPOT
LONDON

UNDERFLOORHEATING
DESIGN | SUPPLY | INSTALLATION

PROJECT BACKGROUND

Manor Place is a mixture of historical buildings and features a grade II listed building, originally constructed in 1898 as public bathing pools and a wash house. Regarded as a heritage asset by the local community, the development is combining a mix of residential and commercial properties.

Working closely with the developer, UFHN LTD are installing a full floor package that included an 10mm HD10+ acoustic layer, 25mm EPS insulation and 40mm Gyvlon Thermio screed; and of course the underfloor heating system.

CLIENT

Mechanical

SIZE

12,900m² - 216 apartments

PRODUCT

Pipe, manifolds, controls, insulation, acoustic layer and screed

CONTROLS

Heatmiser Programmable Room Thermostats
