

CASE STUDY

STONE FARM
YOEVL

UNDERFLOORHEATING
DESIGN | SUPPLY | INSTALLATION

PROJECT BACKGROUND

Nestled among the stunning Somerset countryside, Stone Farm Barns is an exclusive rural development of three barn conversions, two new-build single storey barn style homes and stunning restoration of the 'The Old Farmhouse'.

Using UFHN's complete design offering allowed the specification to be detailed correctly before being sent out to tender which included schematics, underfloor, radiators, plumbing and heating layouts, along with a complete system schedules.

Alongside the underfloor, Heatmiser Neo thermostats were used to include the control of radiators, underfloor, towel rail circuit and domestic hot water; giving the client one uniformed control system throughout the property.

CLIENT

Developer

SIZE

From 75m² to 140m²

PRODUCT

**MERCURY Atlas using 16mm
pipe and manifold**

CONTROLS

Heatmiser Neo

“Loved the complete ‘whole house solution’, this made it easier for me to compare pricing but most importantly understanding and being involved in the specification”
